#### **Additional Information:**

1. In the event of a rainout, any tires that were to be allowed that night will be moved to the following race.
2. Each car may submit 4 used tires into their eligible stock to be used as spares.
3. As it is impossible to prepare for every situation throughout the season, Western Speedway reserves the right to allow tires into a competitors eligible stock, as they see fit. Only comparable tires will be allowed. A fair number of laps and heat cycles will be required and documented before being deemed eligible for use.
4. The BC Street Stock Races during the Canada 200 weekend have a separate tire rule. 4 additional tires are permitted for the event. If you participate in both days events, those tires may be included into your eligible tires for the remainder of the season.
