## Nightly Claim Rules for Claimer Cars (May 5, 2022 rev-3)

- Claims will open at 6pm on race night. Claiming paperwork and payment must be submitted to the designated official handling Claims that night.
- There must be a minimum of 10 Cars for Claims to take place.
- All envelopes must be unsealed and include \$300 in cash only. (sealed envelopes will not be accepted)
- Claim paperwork must clearly include your name and your car number. New participants shall register an available number with the designated official. Time will be recorded when handed in. All claims must be submitted prior to the start of the main event.
- Whoever's name is on the envelope must be present to make claims.
- At the end of every main event all cars must park in the area designated by track officials.
- Claims will be completed in the designated area immediately after the main event.
- Claims will be performed starting with the earliest submitted envelope. The first submitted claim will choose a car, followed by the second submitted claim, and so on until all new claims have chosen a car. The driver of the first car to be claimed can then claim another car or walk with the \$300 claim. If there is a claim submitted, there must be a minimum of 4 cars that change owners per event. Cars can only be involved in 1 claim per event.
- The claimed car is complete 'as is' after the main event. Cars must include 2 spare tires (with proper bolt pattern for car, no space savers). The belts, window net, battery, and racing seat may be removed from the car. All cars must have a battery and stock seat to complete the claim. All other parts of the car must be included (no tire changes after main event)
- All claims will be recorded each race.
- You may NOT claim your own car back for the next 2 races. All claimed cars must be raced in the following 2 races or consequences may be handed out.
- On 2 day weekends, claims will only be accepted on the final night of the weekend.
